Praise God

(Doxology)

Performance option- Having taught this to a congregation over the course of several weeks, I offer the following suggestions: Week 1: Have a soloist or small group sing bars 1-22 (in unison if a small group) and invite the congregation to sing at bar 23. Week 2 and (if needed) 3: Continue as in week one but in parts if using a group. When the congregation is comfortable with the melody, you can shorten the piece if you wish by cutting bars 1-20 and starting at bar 21.
